Extension activity on, Date-19-09-2026

“Ganpati Idol Donation & Pooja waste disposal”

The Department of Chemistry, in collaboration with the Kolhapur Municipal Corporation, organized an extension activity entitled “Ganpati Idol Donation & Pooja Waste Disposal” with the objective of promoting environmental awareness and encouraging eco-friendly practices during the Ganesh festival. The main aim of this activity was to create awareness among citizens about the environmental impact of immersing Ganpati idols and disposing of pooja materials in natural water bodies. The initiative encouraged devotees to donate Ganpati idols for reuse and to dispose of flowers, garlands, nirmalya, and other pooja waste through appropriate collection and disposal facilities provided by the Municipal Corporation.

Faculty members and student volunteers from the Department of Chemistry actively participated in the activity and guided citizens regarding the importance of protecting rivers, lakes, and other water bodies from pollution. The volunteers also spread awareness about the harmful effects of chemical paints, plaster of Paris (PoP), and other non-biodegradable materials on aquatic ecosystems and water quality.

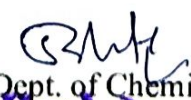

Awareness Campaign: The Chemistry department raises awareness about the importance of eco-friendly Ganpati celebrations. The Idol Collection Center was placed near college Entrance gate area: The Idol send to Municipal Corporation of Kolhapur for Recycling.

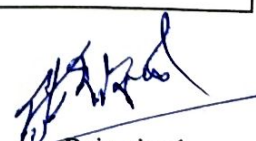

Outcomes: 158 Ganpati idols collected and recycled. 70 kg of non-biodegradable materials recovered and reused. 45 local artisans benefited.
