Date: - 15th July, 2023

Mechanism of testing entry level knowledge of students

Examination and Academic Development Committee informs to All HODs that a Diagnostic Test should have to conduct at departmental level (at the time concerned lecture/Period) for 1st year students (Faculty-wise).

The committee also informs to the students of 1st year of all programmes about a diagnostic test at the beginning of academic year in order to test their primary level knowledge and information about the subjects which they have opted at the time of admission.

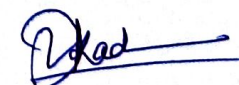

Following points have taken into consideration for a diagnostic test:

- Prepare a question-paper having 10 MCQs in general related to the concerned subject.
- Expectations from each department are to evaluate the test, prepare result and diagnose the students as advanced learners and slow learners and take special efforts for both the groups at departmental level with time table in order to give academic justice and proper guidance.
- Steps for Slow Learners may include Remedial Coaching, Home Assignments, Bridge Course, Special Lectures etc.
- Steps for Advanced Learners may include Seminar, Group Discussion, etc.
- Records of above keep in your depart for further process.

During the academic year, a diagnostic test was conducted during 1st week of August 2023.
