Rayat Shikshan Sansta's

Rajarshi Chhatrapati Shahu College, Kolhapur. Department of Chemistry B.Sc.-III ,Unit Test (Nuclear chemistry) Paper-XIII,Sem-VI

Time : 1 hr Total marks : 25	Subject: Inorganic Chemistry Date : 22/03/2018
Q. 1. Select the most correct alternative and rewrite the fo	
i] The isotope emitting radioactivity is called	
	Isotope.
,	
c) daughter d) fertile	
ii] Thorium is used as a blanket because it is	···
a) useless b) Causing less pollu	ntion
c) fertile d) non fertile	
iii] Artificial radioactivity was discovered by	
a) Iren Curie Joliot and F.Joliot b) Strassma	ın
c) Bethe d) Rutherford and ch	adwick
iv] Central rod used to absorb excess neutrons in nuc	clear reactor are made up of
a) Thorium b) Platinum	
c) Cadmium d)) Calcium	
v] Nuclear fusion reactions are calledreaction	ns.
a) thermonuclear b) thermogravimetr	ric
c) thermoplastic d) homonuclear	
Q. 2. Short Answer Question (Attempt Any Two)	[10]
i] What is artificial atomic transmutation.	
ii] Give difference between nuclear fission and fusi-	on reaction.
iii] Write a note on nuclear reactor.	
Q. 3. Long Answer Question (Attempt Any One)	[10]
i] Discuss nuclear fission reaction in detail.	
ii] Give applications of radioisotopes as tracers.
