ABSTRACT

Health is a very significant matter in the daily life of a vehicle driver. The aim of this study is to identify the problems among the auto rickshaw service providers in relation to their standard of living and the number of hours put in driving the auto rickshaws, their life style, economic status, technology awareness, educational status, awareness about insurance. For this purpose, a well designed questionnaire prepared for collection of primary data containing various attributes and was circulated to 125 auto rickshaw drivers through convenient sampling technique and The data had been collected from different location in Kolhapur city . The collected data were then analysed with the help of various statistical tools and techniques to know the socio economic lifestyle of the autorickshaw drivers in kolhapur city .In our study the obtained results shows revealed major issues and backlogs in their socio economic lifestyle.

KEYWORDS: *Graphical Representation, Large Test , Small Test, Level of significance.*

INTRODUCTION

Auto rickshaw drivers in India have different life style. They work on daily basis and earn enough money to spend with their family. Rickshaw drivers with their humble behavior and hard work, earn money by taking the passengers to their destination. He is unable to buy his own rickshaw on his bases that's why, he takes loan from bank to

buying rickshaw or he rent it for a rickshaw's owner. He works day in, day out. The hard work by rickshaw driver does not match the money for their fulfillment. Most of the times people try to pay him less. Rickshaw drivers want easy cash so he takes more passengers in a day and hard work. His life is simple life as he as to stand near road intersection and wait for passengers. He is one of the reasons for traffic.
