Short Term Course on,
“Preparation of Household chemicals”

Report 2021-22

Department of Chemistry organize the certificate Short term course on **“Preparation of Household chemicals”** for M.Sc I students, for the academic year 2021-22. The main objective of this course is 1. To make availability of self employment. 2. To develop confidence for doing job. 3. To develop skills required for job. 4. To develop skills of market survey. 5. To develop knowledge of domestic chemicals. 6. To develop skill of subject knowledge on applied basis. For this course the fees of **Rs-500** charged for the students. **Total 44 students** admitted and benefitted for this course.

Students understand the concept of different types of household chemicals in the context of Chemistry. Students laboratory experiment related skills enhanced, they learn to do various Volumetric titration, Conductometric titration, Preparation of standard solutions, Preparation of phenyls, Preparation of Soap, Preparation of Detergent Powder, Preparation of Liquid Soap and Preparation of Neel.

During theory lectures they understand the Basic Concepts in Domestic chemicals like Mole concepts, Concentration, Units of concentration, Normality, Molarity, Molality, Mole Fraction, Percentage composition by volume, Percentage composition by weight.etc On completion of this course students get motivated to do a job in chemical fields by applying their knowledge. Students can prepare such a household chemicals and directly sell them into the market. **Dr. K. V. Gaikwad** worked as a Coordinator for this course.
